

FRINK ANALYTICS LABORATORY TECHNICAL DATASHEET

FEATURES	BENEFITS
Design features	<ul style="list-style-type: none"> - state-of-the-art dashboard applications - information structured in various chart formats for easy understanding of KPIs - full responsive html5 based views, no flash needed - combine multiple Collaboration technologies for a full view of your deployment
Application features	<ul style="list-style-type: none"> - Full security model with multiple accounts and views - Multi-platform capable - both cloud based and on-premise deployment possible
Performance features	<ul style="list-style-type: none"> - Dual NoSQL and SQL architecture for high performance and flexibility - ability to near real time view for WebEx and other data (depending on connected technologies)

PRODUCT COMPATIBILITY	
Cisco product compatibility (WebEx Module)	Cisco WebEx Meeting Center WBS28 or later
Cisco product compatibility (TMS Module)	TMS 14.6 or later
Cisco product compatibility (UCM Module)	Cisco Unified Communications Manager 9.1(2) or later
VM requirements (in case of on premise deployment)	Virtual Machine, 2vCPU, 4 Gigabyte RAM (can vary based on amount of data loaded)
Client compatibility Desktop	Current HTML5 capable browser (IE10 or greater, Mozilla Firefox, Google Chrome, Safari)
Client compatibility Mobility	Webkit compatible browser (Android browser/Chrome, Mobile Safari), Microsoft Edge
